REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-3 and 6-11 are allowed.

1. The following is an examiner's statement of reasons for allowance:

With respect to claim 1 the prior art record does not disclose egg freezing and storing instrument comprising a metal cylindrical protection member for protecting egg freezing and storing tube, wherein said cylindrical protection member has a tubular part for accommodating said front side of said small-diameter part of said egg freezing and storing tube; and a semi-tubular part for accommodating a portion of said small-diameter part of said egg freezing and storing tube not accommodated in said tubular part and a front portion of said body part.

With respect to claim 6 the prior art record does not disclose a metal cylindrical protection member mounted on said egg freezing and storing tube, for protecting said egg freezing and storing tube, wherein said cylindrical protection member has a tubular part for accommodating said front side of side small-diameter part of said egg freezing and storing tube; a semi-tubular part, disposed at a rear end of the tubular part, for accommodating a portion of said small-diameter part of said egg freezing and storing tube not accommodated in said tubular part and a front portion of said body part; and a holding part, disposed at a rear end of said semi-tubular part, for holding said body part of said egg freezing and storing tube, said cylindrical protection member is slidable to a rear side of said egg freezing and storing tube to allow said small-diameter part to be exposed to the outside from a front end of said cylindrical protection member; and

Art Unit: 1709

said egg freezing and storing tube has a slip-off prevention part, for preventing said cylindrical protection member from slipping off front said egg freezing and storing tube, formed on said body part thereof or in the vicinity of a boundary between said body part thereof and said small-diameter part thereof.

With respect to claims 10 and 11, the prior art record does not disclose a metal cylindrical protection member being slidable to a rear side of said egg freezing and storing tube to allow said small-diameter part to be exposed to the outside from a front end of said cylindrical protection member, and said egg freezing and storing tube has a slip-off prevention part for preventing said cylindrical protection member from slipping off from said egg freezing and storing tube. The prior art also does not suggest exposing said small-diameter part of said egg freezing and storing tube to the outside by sliding said cylindrical protection member to a rear side of said egg freezing and storing tube; accommodating said small-diameter part of said egg freezing and storing tube in said cylindrical protection member by sliding said cylindrical protection member to a front side of said egg freezing and storing tube after said one side of said egg freezing and storing tube is sealed or both said one side of said egg freezing and storing tube and a portion of said body part are sealed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
